Questions about the additional stress on our area: Specifically Traffic

Traffic issues in the Robert/Ponchatoula area

Traffic coming off of I-12 at the Robert exit which feeds the above mention areas is getting to the point of needing infrastructure improvements now several times throughout the day you can wait several minutes to get onto HWY 445 from the interstate. Then once you get onto 445, it is one of the worst roads to drive on due to the damage from the above businesses specifically the Wall-Mart DC, and nothing has been done to fix these issues. What makes us believe this is going to happen now.

Proposed Casino & Resort Questions from the Haven Homeowners:

The issue with HWY 445 is it is a state own/maintained road. This is one of the worst roads in the parish. We want HWY 445 fixed, & How will improvements be made to handle the traffic?

Building this is going to change the natural drainage of the Tangipahoa River, How will drainage be addressed?

We want to see renderings of this project.

How will the security of The Haven residents be handled and or guaranteed? The Haven homeowners are asking for our community to be gated. We would like a 24-hour guard at the gates (paid for by the casino), the roads/infrastructure still be up kept by the parish. (We don't want to lose this benefit because of the assurance of the security by having our community gated)

How can Champ Cooper school be guaranteed that the school and students will be safe?

Will there be a hotel on site?

Due to the amphitheater will the casino install sound barrier walls to ensure the residents of the Haven subdivision will continue to have the quality of a peaceful and quiet neighborhood. We need to have an ordinance put in place that the surrounding properties cannot have hotels, condos, liquor stores, pawn shops, strip clubs, or any other sort of business built on them that will affect the value of our homes. We have all spent thousands of dollars here and we do not need to suffer because of this project.

We also need to make sure that the required infrastructure improvements don't end up costing us. Like our homeowner's insurance rates increased because of a strain on our existing infrastructure. We need an ordinance assuring that our property taxes will not increase due to the additional cost to the parish because of the infrastructure needing to be revamped (Fire, Police, etc.) Will Fire and police protection be increased?
